

**Dutt Lab & Shilpee Lab  
Newsletter June 2017**

*World Environment Day occurs on 5 June every year, is the United Nation's principal vehicle for encouraging worldwide awareness and action for the protection of our environment. This day celebrates the natural environment and allows a global platform to raise awareness on the environmental issues worldwide, with plans to mitigate these issues as a global community. Each year, this day has a new theme that major corporations, NGOs, communities, governments and celebrities worldwide adopt to advocate environmental causes. The theme for 2017 is 'Connecting People to nature –in the city and on the land, from the poles to the equator.'*

**CONSERVE & PROTECT OUR  
ENVIRONMENT**

**Welcome to the family**
