

Integrated Cancer Genomics Lab

JUNE NEWSLETTER 2025

A snapshot of the tumor microenvironment, where each cluster represents a different cell type doing its part. From immune fighters like T cells to structural supporters like fibroblasts, this UMAP shows the complex neighborhood at single-cell resolution.

Cheers to New Beginnings, Ornella!

The Dutt Lab members came together to celebrate Ornella Khwairakpam's farewell with warm wishes, laughter, and memories to last a lifetime.

Creative Corner

Chasing light after dark, where nature meets a man-made sun
